

# BULLETIN OF EARTHQUAKE RESISTANT STRUCTURE RESEARCH CENTER

NO. 12  
MARCH 1979

## Contents

<b>Foreword</b>	T. Okada	1
<b>Papers</b>		
Soil Liquefaction and Damage to Soil Structure During the Earthquake Off Miyagi Prefecture on June 12th, 1978 F. Tatsuoka, Y. Ohkochi, S. Fukushima, H. Igarashi and S. Yamada		3
Seismic Risk As Expressed by Acceleration Response of Single-Degree-of-Freedom System T. Katayama		15
New Types of Ground Motions for the Anti-Earthquake Design of Non-Building Industrial Facilities H. Shibata, T. Shigeta and A. Sone		25
Comparison of Five Approximate Methods of the Nonlinear Equation of Motion H. Goto and Y. Hangai		43
A Discrete Analysis on Dynamic Collapse of Clamped Beams and Rectangular Plates Loaded Impulsively T. Kawai and Y. Toi		57
<b>List of Papers by the Members of ERS Research Center</b>		65
<b>News</b>		72
<b>Meetings of Earthquake Resistant Structure Research Center</b>		74
