

# BULLETIN OF EARTHQUAKE RESISTANT STRUCTURE RESEARCH CENTER

NO.15  
MARCH 1982

## Contents

Foreword	M. HAKUNO .....	1
Papers		
Shaking Table Tests of a Three-story Single-bay Steel Frame Model K. OHI, K. TAKANASHI and H. TANAKA .....		3
Buckling Failure of Cantilever Type Cylindrical Shells under the Horizontal Load M. YONEYAMA, H. OHMORI and Y. HANGAI .....		13
A Discrete Limit Analysis of Framed Structures Including the Effects of Foundations by Using New Beam Elements N. TAKEUCHI and T. KAWAI .....		23
Probabilistic Modeling of Spatial Variability of Seismic Ground Movement T. HARADA .....		45
A Numerical Experiment on Screening of Surface Wave at an Open Trench N. OHBO and T. KATAYAMA .....		55
Cyclic Undrained Simple Shear Strength of Sands Affected by Specimen Preparation Methods F. TATSUOKA, S. FUJII, S. YAMADA and M. MURAMATSU .....		67
