

LIST OF PAPERS BY THE MEMBERS OF ERS

SEISAN-KENKYU: Monthly Journal of the Institute of Industrial Science,
University of Tokyo

JSCE: The Japan Society of Civil Engineering

JSME: The Japan Society of Mechanical Engineers

AIJ : The Architectural Institute of Japan

WCEE: The World Conference on Earthquake Engineering

* : Written in Japanese

C. Tamura, S. Okamoto and K. Kato: "On Twisting Deformations of a Tunnel in Soft Ground During Earthquakes," Proc. of VII Symposium on Earthquake Engineering, University of Roorkee, India, Vol. 1, Nov. 1982.

* C. Tamura, G. Han and K. Kato: "An Experimental Study on Propagation of Wave Motion in a Thin Gravel Layer," SEISAN-KENKYU, Vol. 34, No. 9, 1982.

* G. Han, T. Sato, F. Tatsuoka and C. Tamura: "Study on Strength and Deformation of Unsaturated Sand under Low Lateral Pressure," SEISAN-KENKYU, Vol. 34, No. 9, 1982.

* C. Tamura, G. Han and K. Kato: "Vibration Failure Tests on Fill dam Models," Preprint of 37th JSCE Annual Meeting, Vol. 1, 1982.

* C. Tamura, K. Kido and K. Kato: "A Comparison of Earthquake Response Analyses with Earthquake Observation records on Submerged Tunnel," Preprint of 37th JSCE Annual Meeting, Vol. 1, 1982.

* C. Tamura, G. Han and K. Kato: "On Effects of Cohesion on Vibration Failure Behavior of Models of Fill Dam," SEISAN-KENKYU, Vol. 34, No. 10, 1982.

* C. Tamura, G. Han and K. Kato: "A Study on Vibration Failure Mechanism of Sand Models of Fill Type Dam," Proceedings of 6th Japan Earthquake Engineering Symposium-1982, 1982.

M. Seki, M. Teshigawara and T. Okada: "Simulation of Earthquake Response of Reinforced Concrete Building Frame by Computer-Actuator On-Line System" Proceedings of the International Conference on Computational Methods and Experimental Measurements, June 30th-July 2nd 1982, Washington D.C., U.S.A.

* M. Teshigawara and T. Okada: "An Effect of Shear Wall in Reinforced Concrete Buildings (Part.2)," Proc. of the Annual Convention of AIJ, Oct. 1982.

- * K. Okada, K. Takanashi and T. Okada: "Earthquake Response of Equipments Anchored on Building Floor (Part.3)," Proc. of the Annual Convention of AIJ, Oct. 1982.
- * T. Okada, M. Seki and T. Nishida: "Seismic Safety of Reinforced Concrete School Buildings (Part.1)," Proc. of the Annual Convention of AIJ, Oct. 1982.
- * M. Seki, T. Nishida and T. Okada: "Seismic Safety of Reinforced Concrete School Buildings (Part.2)," Proc. of the Annual Convention of AIJ, Oct. 1982.
- * T. Okada: "Evaluation of Seismic Safety and Hazard Mitigation of Existing Reinforced Concrete Buildings," Concrete Journal, Japan Concrete Institute, Sept. 1982.
- * T. Okada: "Evaluation of Seismic Safety and Strengthening of Existing Reinforced Concrete Buildings" Proceedings of the Symposium on Strengthening of Existing Reinforced Concrete Buildings, Japan Concrete Institute, Jan. 1983.
- H. Shibata: "State of the Art Panel Report on: Earthquake Resistant Design," State-of-the-Art in Earthquake Eng'g. 1981, Sept. 1980, p.284.
- * H. Shibata: "Aseismic Design of Mechanical Components for Industrial Plants -- Recent Development -- (Part I)," Kikai-no-Kenkyu (Science of Machine), Vol. 34, No. 1, Jan. 1982, p.1.
- * H. Shibata: "Aseismic Design of Mechanical Components for Industrial Plants -- Recent Development -- (Part II)," Kikai-no-Kenkyu (Science of Machine), Vol. 34, No. 2, Feb. 1982, p.31.
- * M. Shintani and H. Shibata: "Input Earthquake Motions for Shaking Test of Mechanical Components," Preprint of JSME, No. 824-9, March 1982, p.76.
- * H. Shibata: "Mulfunction of Edi-Current-type Relay Induced by Earthquake Motions - Part I -, " Preprint of JSME, No. 820-4, March-April 1982, p.120.
- * T. Fujita, A. Inoue and H. Shibata: "Some Comments on Evaluation Method of Non-linear Two-mass System," Preprint of JSME, No. 820-4, March-April 1982, p.117.
- H. Shibata, M. Inagaki and T. Fujita: "Mulfunction of Edi-Current Type Relay under Some Earthquake Conditions," Bull. of ERS, No. 15, March 1982, p.97.
- H. Shibata: "Input Earthquake Motion for Vibration Test of Critical Equipment and Pipings of Nuclear Power Plant on Earthquake Simulator," Proc. of Third KESWICK International Conference, No. 55, May 1982, pp.6.
- H. Shibata: "Designing Seismic Qualification Test and Improving Reliability of Equipment," Note for Panel, ASME PV & P Conf., July 1982, pp.11.

- * H. Shibata: "Role of Automated Design in Application Practice of Regulatory Code," Preprint of JSME, No. 820-7, July 1982, p.7.
- * H. Shibata, K. Tozawa and H. Kondo: "Way of Interpolation of Lacked Earthquake Motion Time-history," Preprint of JSME, No. 820-8, Aug. 1982, p.210.
- H. Shibata: "Brief Note and Comments on Recent Earthquake Engineering Studies and Development in Japan," Proc. of US-PRC Bilateral Workshop on Earthq. Eng'g., Aug. 1982, p.F-8-1.
- * H. Shibata: "Basic Idea and Structure of Regulation for Aseismic Design," Survey on the State-of-the-Arts of Aseismic Codes for Mechanical and Electrical Components in Japan and Some Comments on Their Future Development, The Japan Machinery Federation, Sept. 1982, p.42.
- * H. Shibata: "Reevaluation and Improvement of Equipment and Piping of Nuclear Power Plants against Higher Design Basis Earthquake," Preprint of JSME, No. 820-13, Oct. 1982, p.124.
- * H. Shibata: "Overview on Aseismic Design Development through the World," Anzen Kogaku (J. of Japan Society for Safety Engineering), Vol. 21, No. 6, Dec. 1982, p.372.
- H. Shibata, H. Itagaki and others: "A Comment on Input Ground Motions for Seismic Qualification Test of Pipings and Components," Proc. of 6-Natural Symposium on Earthq. Eng'g. Japan-1982, Dec. 1982, p.977.
- * H. Shibata, T. Shigeta and others: "Response Analysis of Liquid Storages to Natural Earthquakes," Preprint of JSME, No. 830-6, March-April 1983, p.144.
- * T. Fujita and S. Hattori: "An Earthquake Isolation Floor Using Pre-Tensed or Pre-Compressed Springs (7th Report; Analysis for Actual Earthquake Isolation Floors -- Part 2 --)," SEISAN-KENKYU, Vol. 34, No. 2, February 1982.
- * T. Fujita, S. Fujita and T. Yoshizawa: "An Aseismic Base Isolation System Using Laminated Rubber Bearings for Heavy Mechanical Equipment (1st Report; Fundamental Study on Isolation Device -- Part 1 --)," SEISAN-KENKYU, Vol. 34, No. 2, February 1982.
- * T. Fujita, S. Fujita and T. Yoshizawa: "An Aseismic Base Isolation System Using Laminated Rubber Bearings for Heavy Mechanical Equipment -- 1st Report," Preprint of JSME, No. 820-4, March 1982.
- * T. Fujita, S. Fujita and T. Yoshizawa: "An Aseismic Base Isolation System Using Laminated Rubber Bearings for Heavy Mechanical Equipment (2nd Report; Fundamental Study on Isolation Device -- Part 2 --)," SEISAN-KENKYU, Vol. 34, No. 9, September 1982.
- * T. Fujita, S. Fujita and T. Yoshizawa: "An Aseismic Base Isolation System Using Laminated Rubber Bearings for Heavy Mechanical Equipment -- 2nd Report," Preprint of JSME, No. 820-13, October 1982.
