

LIST OF PAPERS BY MEMBERS OF
EARTHQUAKE RESISTANT STRUCTURE RESEARCH CENTER

- SEISAN-KENKYU : Monthly Journal of the Institute of Industrial Science,
University of Tokyo
- JSCE : The Japan Society of Civil Engineers
- JSME : The Japan Society of Mechanical Engineers
- AIJ : The Architectural Institute of Japan
- JSSC : The Japan Society of Steel Construction
- JSSMFE : The Japanese Society of Soil Mechanics and Foundation
Engineering
- * : Written in Japanese
-
- * C. Tamura, M. Hakuno, H. Imura and M. Takeuchi : "Damages due to the 1985
Mexico Earthquake," Jour. of JSCE, Vol.71, No.5, May 1986.
- C. Tamura : "Dynamic Behaviors of Tunnels in Soft Ground during Earthquakes,"
International Symposium on Urban Disaster Mitigation, Beijing, Sept., 1986.
- * C. Tamura : REPORT OF THE DAMAGE OF THE 1983 NIHON-KAI CHUBU EARTHQUAKE
(JSCE, 1986), pp.3-14, Oct., 1986.
- * C. Tamura, H. Kuwabara and T. Suzuki : "Distribution of Axial strain of
Shield driven Tunnel during the Torishima-kinkai Earthquake," Preprint of
41st Annual Meeting of JSCE, Division No.1, Nov., 1986.
- * C. Tamura, T. Suzuki and H. Kuwabara : "Propagation Velocity of Axial
Strain of Shield driven Tunnel during the Torishima-kinkai Earthquake,"
Preprint of 41st Annual Meeting of JSCE, Division No.1, Nov., 1986.
- * C. Tamura, H. Hirai and K. Kato : "Vibration Failure Tests on Embankment
Dam Models by Excitation in Horizontal and Vertical Directions
Simultaneously," Preprint of 41st Annual Meeting of JSCE, Division No.1,
Nov., 1986.
- * K. Kato and C. Tamura : "Influence of the Berm on the Vibration Failure of
Embankment Dam Models," Preprint of 41st Annual Meeting of JSCE, Division
No.1, Nov., 1986.

- * C. Tamura : "Behaviors of Embankment Dams during the 1985 Mexico Earthquake," Preprint of 41st Annual Meeting of JSCE, Division No.1, Nov., 1986.
- * C. Tamura, H. Kuwabara and T. Suzuki : "Dynamic Behaviors of Ring Joint of Shield Tunnels during Earthquakes," SEISAN-KENKYU, Jour. of IIS, Univ. of Tokyo, Vol.38, No.11, Nov., 1986.
- C. Tamura and T. Suzuki : "A Quasi-three-Dimensional Ground Model for Earthquake Response Analysis of Underground Structures - Construction of Ground Model - ," SEISAN-KENKYU, Jour. of IIS, Univ. of Tokyo, Vol.39, No.1, Jan., 1987.
- C. Tamura, T. Suzuki and M. Inamori : "A Quasi-three-Dimensional Ground Model for Earthquake Response Analysis of Underground Structures - Verification of the Model by Vibration Tests - ," SEISAN-KENKYU, Jour. of IIS, Univ. of Tokyo, Vol.39, No.2, Feb., 1987.
- * C. Tamura : "Damages of Civil Engineering Structures in Epicentral Area in the 1985 Mexico Earthquake," JSEEP NEWS, No.91, Nov., 1986.
- T. Suzuki, C. Tamura and H. Maida : "Earthquake Observation and Response Analysis of Shield Tunnel," Proc. of 7th Japan Earthquake Engineering Symposium 1986, Dec., 1986.
- C. Tamura, S. Okamoto and K. Kato : "On Effect of Vertical Ground Motion on Stability of Fill-Type Dams," Proc. of 7th Japan Earthquake Engineering Symposium 1986, Dec., 1986.
- C. Tamura, S. Okamoto, E. Ba and K. Kato : "An Experimental Study on Effect of Shapes of Cross-Section of Embankment Dam on It's Stability during Earthquakes," International Symposium on High-Technology in Power Engineering, New Delhi, India, Jan., 1986.
- * C. Tamura : "Tunnel and Earthquake," Text of '87 Short Course for Tunnel Engineering, JATT, Feb., 1987.
- T. Okada, F. Kumazawa and R. Tamura : "Earthquake Response of Reinforced Concrete Weak-Model Structures Due to October 4, 1985 Earthquake," Bull. of ERS, No.19, March 1986.
- * T. Okada : "A Report of Damage Investigation of the Mexico Earthquake 1985," SEISAN-KENKYU, Vol.38 No.4, April 1986.
- * T. Okada : "Japanese Technical Cooperation for Restoration to the Damage by the Mexico Earthquake," The Building Letter, The Building Center of Japan, March 1986.
- * T. Okada : "Seismic Design of Buildings in Mexico," Symposium on Mexico Earthquake-Eruption of Colombia Volcano -from Occurrence of Disaster to Countermeasures against Restoration-, Society for Earthquake Engineering Promotion, March 1986.

- * T. Okada : "Needs to Apply Seismic Evaluation to Private Buildings," Journal of Building Disaster Prevention, The Japan Building Disaster Prevention Association, September 1986.
- * K. Kubo and others including T. Okada: "A Report of Investigation of Damage by the NIHONKAI-CHUUBU Earthquake 1983," JSCE, October 1986.
- T. Okada : "Evaluation of Seismic Capacity and Strengthening of Existing Reinforced Concrete Buildings," International Seminar on Regional Development Planning for Disaster Prevention, United Nations Center for Regional Development, September 1986.
- T. Okada and F. Kumazawa : "Flexural Behavior of Reinforced Concrete Block Beams with Lap Splices and Spiral Reinforcements," The Second Meeting of the Joint Technical Coordination Committee on Masonry Research, U.S.-Japan Cooperative Research Program, September 8, 9, and 10, 1986, Keystone, Colorado, U.S.A., September 1986.
- * Y. Inada, T. Okada and others : "Model Tests for Evaluation of Restoring Force Characteristics of Reactor Buildings (Part 1: Results of Evaluations of Closed Type Specimens, Skeleton Curve)," Proc. of the Annual Convention of AIJ, August 1986.
- * A. Endo, T. Okada and others : "Model Tests for Evaluation of Restoring Force Characteristics of Reactor Buildings (Part 2: Results of Evaluations of Closed Type Specimens, Loop)," Proc. of the Annual Convention of AIJ, August 1986.
- * H. Ohta, T. Okada and others : "Model Tests for Evaluation of Restoring Force Characteristics of Reactor Buildings (Part 3: Results of Evaluations for Specimens Modeling a Part of the Inner Concrete Structure for PWR-Type Nuclear Power Plant)," Proc. of the Annual Convention of AIJ, August 1986.
- * M. Itoh, T. Okada and others : "Model Tests for Evaluation of Restoring Force Characteristics of Reactor Buildings (Part 4: Results of Evaluations for Whole Model Specimen Simulating the Inner Concrete Structure for PWR-Type Nuclear Power Plant)," Proc. of the Annual Convention of AIJ, August 1986.
- * S. Sugano, T. Okada and others : "Model Tests for Evaluation of Restoring Force Characteristics of Reactor Buildings (Part 5: Evaluation of Test Result of a Composite Model of PWR Reactor Building)," Proc. of the Annual Convention of AIJ, August 1986.
- * S. Yoshizaki, T. Okada and others : "Model Tests for Evaluation of Restoring Force Characteristics of Reactor Buildings (Part 6: Scale Effect Test)," Proc. of the Annual Convention of AIJ, August 1986.
- * R. Tamura, F. Kumazawa and T. Okada : "Observation of Earthquake Response of Reinforced Concrete Weak-Model Structures (Part 6: Response Due to October 4, 1985 Earthquake)," Proc. of the Annual Convention of AIJ, August 1986.

- * Y. Nakano and T. Okada : "A Study on the Distribution of Decision Criteria E_T -Index," Proc. of the Annual Convention of AIJ, August 1986.
 - * K. Tozuka, Y. Nakano, T. Okada and others : "Seismic Capacity of Reinforced Concrete Buildings Which Suffered 1985 Mexico Earthquake in Mexico City (Part 10: TLALTELOLCO Type C)," Proc. of the Annual Convention of AIJ, August 1986.
 - * K. Yamaguchi, Y. Nakano, T. Okada and others : "Seismic Capacity of Reinforced Concrete Buildings Which Suffered 1985 Mexico Earthquake in Mexico City (Part 11: Typical School Building)," Proc. of the Annual Convention of AIJ, August 1986.
 - * T. Okada, Y. Nakano and others : "Seismic Capacity of Reinforced Concrete Buildings Which Suffered 1985 Mexico Earthquake in Mexico City (Part 13: Relationship between Estimated Seismic Capacity and Damage)," Proc. of the Annual Convention of AIJ, August 1986.
 - * F. Kumazawa, Y. C. Wu, S. Horiuchi and T. Okada : "U.S.-Japan Coordinated Earthquake Research Program on Reinforced Masonry Buildings (23), Seismic Capacity of Reinforced Masonry Walls and Beams, Part 15. Flexural Behavior of Reinforced Concrete Block Beam (II)," Proc. of the Annual Convention of AIJ, August 1986.
 - * T. Okada and Y. Nakano : "Seismic Capacity of Existing R/C Buildings," Proc. of the Annual Translations of AIJ, Kanto Branch, June 1986.
- Y. Nakano : "Seismic Capacity of Existing Reinforced Concrete Buildings," Proc. of the Seventh Japan Earthquake Engineering symposium 1986, Earthquake Engineering Research Liaison Committee: Science Council of Japan, December 1986.
- M. Murakami, T. Okada and others : "Post-Earthquake Inspection and Evaluation of Earthquake Damage in Reinforced Concrete Buildings," Proc. of the seventh Japan Earthquake Engineering Symposium 1986, Earthquake Engineering Research Liaison Committee: Science Council of Japan, December 1986.
- T. Okada and others : "Seismic Capacity of Reinforced Concrete Buildings Which Suffered 1985.9.19-20 Mexico Earthquake," Proc. of the Seventh Japan Earthquake Engineering Symposium 1986, Earthquake Engineering Research Liaison Committee: Science Council of Japan, December 1986.
- * T. Okada : "The Damage Due to the Mexico Earthquake 1985.9.19, -5. Damage on Reinforced Concrete Buildings, -5.4. Seismic Capacity and Damage of Reinforced Concrete Buildings in Mexico City," Column No.102, Nippon Steel Corporation, September 1986.
 - * H. Shibata and others : "Seismic-Probabilistic-Risk-Assessment of Nuclear Power Plants (Chapter 1)," Jour. of Atomic Energy Society, Japan, Vol.28, No.1, January 1986.

- * H. Shibata and others : "Study on Dynamic Failure of Graphite Structure by Testing---Intrim Report," JAERI-Memo, No.61-022, February 1986.
- H. Shibata and M. Kato : "Recent Development of Fundamental Philosophy of Anti-earthquake Design for Nuclear Power Plants in Japan," The Specialist Meeting in Anti-earthquake Design, IAEA (Moscow), March 1986.
- * H. Shibata : "Relation between Human Error and Regulatory Document for Anti-Earthquake Design," Summary Paper Collection of Spring Meeting, JSME, No.860, #610, April 1986.
- * H. Shibata : "On Substitution of Computer Code to Regulatory Order of MITI," Jour. of Law and Computer, No.4, April 1986.
- H. Shibata, M. Watabe, H. Akiyama, H. Sato and T. Omori : "On the Seismic Proving Tests with Large Vibration at Tadotsu Engineering Laboratory," 2nd Int. Topical Meeting, NNP Thermal Hydraulics and Operation, Tokyo, April 1986.
- * H. Shibata ed. : "Anti-Earthquake Design of Chemical Engineering Plant," Maruzen Co.Ltd., May 1986.
- H. Shibata : "Human Error and Failure of Equipment and Piping Systems in Industrial Plants," Preprint for Human Error NSF Workshop, Univ. of Michigan, June 1986.
- H. Shibata : "Assumed Process of Piping Failure in Nuclear Power Plants, Under Destructive Earthquake Condition," Preprint of Euro-China Earthquake Engineering Conf., Beijing, June 1986.
- * H. Shibata and K. Tanimizu : "Failure Mechanism of Piping System, Simulation of Zipping Phenomenon," Summary Paper Collection of Conference on Mechanics, JSME, No.860-5, #219, July 1986.
- H. Shibata, N. Kobayashi, Y. Shinozaki and T. Mieda : "A Study of The Liquid Slosh Response in Horizontal Cylindrical Tanks," Preprint for PV & P Conf., ASME, PVP-Vol.708, July 1986.
- H. Shibata : "Effect of Human Error for Structural Design under Seismic Loadings and its Evaluation," Proc. of NSF Workshop on Civil Engineering Application of Fuzzy Sets, October 1986.
- H. Shibata, Nowak, A.S. ed. : "The Role of Regulatory Documents in Controlling Human Error," Proc. of Modeling of Human Error, Univ. of Michigan, ASCE, October 1986.
- * H. Shibata : "Anti-earthquake Design---Recent Development and Future Subjects," JSME Seminar, No.628, October 1986.
- * H. Shibata : "Drafting of Seismic PSA Guide in IAEA," Preprint for National Symposium on Probabilistic Safety Assessment, December 1986.

- H. Shibata and F. Hara : "Experimental Study on Active Suppression by Gas Bubble Injection for Earthquake Induced Sloshing in Tanks," JSME International Journal, Vol.30, No.260, February 1987.
- * H. Shibata : "Anti-Earthquake Design of Equipment in NPP and its Future Problems," Preprint of 25th National Symposium on Atomic Energy, February 1987.
- * T. Fujita : "Vibration Problems for VLSI Factories - Isolation Technology for Micro-Vibration and/or Earthquake -," Journal of JSME, Vol.89, No.809, April 1986.
- * S. Fujita and T. Fujita : "Static Tests on Laminated Rubber Bearings for Earthquake Isolation of Heavy Equipment - Part 3, Theoretical Study on Stiffness of Laminated Rubber Bearings -," SEISAN-KENKYU, Vol.38, No.4, April 1986.
- * T. Fujita, S. Fujita, S. Suzuki and T. Yoshizawa : "Experimental Study of Laminated Rubber Bearings for Earthquake Isolation of Buildings (1st Report, Static Tests for Rubber Bearings of 490 kN Rated Load)," 64th Annual Convention of JSME, No.86-0572B, October 1986.
- * T. Fujita, S. Fujita, S. Suzuki and T. Yoshizawa : "Experimental Study of Laminated Rubber Bearings for Earthquake Isolation of Buildings (2nd Report, Static Tests for Rubber Bearings of 980 kN Rated Load)," 64th Annual Convention of JSME, No.86-0573B, October 1986.
- * T. Fujita, N. Inoue, K. Asami, K. Tsuruta and S. Takeshita : "A Three - Dimensional Isolation Floor for Earthquake and Ambient Micro-Vibration Using Multi-Stage Rubber Bearings," Proc. of the Seventh Japan Earthquake Symposium, December 1986.
- * S. Fujita, T. Fujita, Y. Sasaki, S. Fujimoto, N. Narikawa and C. Tsuruya : "Study on Energy Absorbing Devices Suitable for Earthquake Isolation of Industrial Facilities," Proc. of the Seventh Japan Earthquake Engineering Symposium, December 1986.
- T. Kawai and Y. Toi : "Discrete Limit Analysis of Nonlinear Problems in Solid and Structural Mechanics," Microcomputers in Engineering: Development and Application of Software (edited by B. A. Schrefler and R. W. Lewis), Pineridge Press, 1986.
- Y. Toi, K. Yuge and T. Kawai : "Finite Element Crush Analysis of Axially Compressed Circular Cylindrical Shells," Proc. of the International Conference on Computational Mechanics, Springer-Verlag, May 1986.
- * Y. Toi, N. Masaoka and T. Kawai : "Nonlinear Analysis of Plate and Shell Structures by Using Bilinear Degenerate Shell Element(I)," SEISAN-KENKYU, Vol.38, No.5, May 1986.

- * Y. Toi, N. Masaoka and T. Kawai : "Nonlinear Analysis of Plate and Shell Structures by Using Bilinear Degenerate Shell Element (II)," SEISAN-KENKYU, Vol.38, No.6, June 1986.
 - * Y. Toi, K. Yuge and T. Kawai : "Basic Studies on the Crashworthiness of Structural Elements (Part 1. Crush analysis by the finite element method)," Journal of the Society of Naval Architects of Japan, Vol.159, June 1986.
 - * N. Masaoka, Y. Toi and T. Kawai : "Collapse Analysis of plate and shell Structures by Using Constant Moment Quadrilateral Shell Element," Proc. of Symposium on Computational Methods in structural Engineering and Related Fields, Vol.10, JSSC, July 1986.
 - * T. Kawai, Y. Toi and N. Suzuki : "Application of the Flat Rigid Plate Element to the Crush Analysis of Structural Members," *ibid.*, July 1986.
 - * Y. Toi, K. Yuge and T. Kawai : "Finite Element Analysis of the Non-Axisymmetric Crushing Behavior of Circular Cylindrical Shells under Axial Compression," *ibid.*, July 1986.
 - * T. Kawai, Y. Toi and K. Yuge : "One-Dimensional Plastic Buckling Simulation of Structural Members," Journal of the Japan Society for Simulation Technology, Vol.5, No.2, July 1986.
- Y. Toi and T. Kawai : "Simulation and Modeling of the Crushing Behavior of Thin-Walled Structures," Proc. of the JSST Conference on Recent Advances in Simulation of Complex Systems, Japan Society for Simulation Technology, July 1986.
- * Y. Toi : "Simulation and Modeling of the Crushing Behavior of Structural Members," SEISAN-KENKYU, Vol.38, No.8, August 1986.
 - * Y. Toi, K. Yuge and K. Obata : "Basic Studies on the Crashworthiness of Structural Elements (Part 2. Non-axisymmetric crush tests of circular cylinders and finite element analysis)," Journal of the Society of Naval Architects of Japan, Vol.160, December 1986.
- K. Takanashi and K. Ohi : "An Earthquake Resistant Design of Industrial Buildings," Proc. of Annual Technical Session, Structural Stability Research Council, April 1986.
- K. Takanashi and M. Nakashima : "A State of the Art : Japanese Activities on On-line Computer Test Control Method," Report of IIS, Vol.32, No.3, Univ. of Tokyo, June 1986.
- K. Takanashi and K. Ohi : "Shake Table Tests of an Industrial Building," Proc. of Pacific Structural Steel Conference, Auckland, New Zealand, August 1986.
- K. Takanashi and T. Nakamura : "Design Formulas for Beam-columns and their Background," Proc. of Pacific Structural Steel Conference, Auckland, New Zealand, August 1986.

- * K. Takanashi, K. Ohi, H. Kondo and X. H. Gao : "Response and Failure Observation of Weakly Designed Steel Structure Models (Part 2. Preliminary Analysis using Computer-Actuator On-line System)," Proc. of the Annual Convention of AIJ, August 1986.
 - * X. H. Gao, K. Takanashi, K. Ohi and H. Kondo : "Response and Failure Observation of Weakly Designed Steel Structure Models (Part 3. Elastic and Inelastic Response Observed on Oct. 4 in 1985)," Proc. of the Annual Convention of AIJ, August 1986.
 - * K. Inuzuka, K. Takanashi, K. Ohi and Y. Shimawaki : "Earthquake Response Simulation of Footing-Frame Models with their Surrounding Soils (Part 1. Response Observation to Natural Earthquakes and Quasi-Static Loading Tests)," Proc. of the Annual Convention of AIJ, August 1986.
 - * K. Ohi, K. Takanashi, Y. Shimawaki and K. Inuzuka : "Earthquake Response Simulation of Footing-Frame Models with their Surrounding Soils (Part 2. Computer-Actuator On-line Pseudo-dynamic Tests)," Proc. of the Annual Convention of AIJ, August 1986.
- K. Takanashi and M. Nakashima : "On-line Computer Test Control Method and Its Application to Earthquake Response Simulation of Steel Structural Models," Proc. of International Conference on Steel Structures(Part 1), Budve, Yugoslavia, October 1986.
- T. Yamada, K. Tagawa, Y. Nakamura and K. Takanashi : "Study on a Structural Steel Framework Suffered from 1985 Mexico Earthquake," Proc. of Annual Technical Session, Structural Stability Research Council, March 1987.
- * K. Ohi and K. Takanashi : " Accuracies and Errors in Predictiog Inelastic Responses of Steel Frames Subjected to Severe Earthquakes (Part I)," Jour. of Structural and Construction Engineering, Trans. of AIJ, March 1987.
- T. Katayama, N. Sato, N. Ohbo, M. Kawasaki and K. Saito : "Ground Shaking Severity Detector by Use of Spectrum Intensity (SI)," Proc. 7th Japan Earthquake Engineering Symposium - 1986. Dec., 1986.
- J. Farjoodi and T. Katayama : "Application of Dense Seismograph Array Data to Evaluate Engineering Properties of Strong Ground Motions," Proc. 7th Japan Earthquake Engineering Symposium - 1986, Dec., 1986.
- * N. Sato, M. Nakamura, T. Iwamoto and N. Ohbo : "Observation of Seismic Ground Motion and Buried Pipe Strain," Proc. 7th Japan Earthquake Engineering Symposium - 1986, Dec., 1986.
 - * M. Nonaka : "Studies on Seismic Load Determination of Highway Bridges by Considering Traffic System Malfunction," Proc. 7th Japan Earthquake Engineering Symposium - 1986, Dec., 1986.

T.Katayama : "Earthquake and Lifeline - Case Studies from Japanese Experiences -," International Seminar on Regional Planning for Disaster Prevention, Session 4, United Nations Center for Regional Development, Sep., 1986.

T. Tanami and Y. Hangai : "Dynamic Experiments and Earthquake Observation of Reticulated Single-Layer Domes," Presented at the International Symposium on Practical Aspects in the Computation of Shell and Spatial Structures, K. U. Leuven, Belgium, July 1986.

Y. Hangai : "Numerical Analysis in the vicinity of Critical Points by the Generalized Inverse," Presented at the International Symposium on Practical Aspects in the Computation of Shell and Spatial Structures, K. U. Leuven, Belgium, July 1986.

H. S. Choi, T. Tanami and Y. Hangai : "Failure Tests of Cantilevered Cylindrical Shells under a Transverse Load," Shells, Membranes and Space Frames, Proc. of the IASS Symposium on Membrane Structures and Space Frames, edited by K. Heki, Elsevier Science Publishers, Vol.1, 1986, pp.265-272.

H. Tanaka and Y. Hangai : "Rigid Body Displacement and Stabilization Conditions of Unstable Truss Structures," Shells, Membranes and Space Frames, Proc. of the IASS Symposium on Membrane Structures and Space Frames, edited by K. Heki, Elsevier Science Publishers, Vol.2, 1986, pp.55-62.

M. Satoh, Y. Hangai, I. Toda, T. Yamagiwa and T. Okuhara : "Buckling Loads of Reticulated Single-Layer Domes," Shells, Membranes and Space Frames, Proc. of the IASS Symposium on Membrane Structures and Space Frame, edited by K. Heki, Elsevier Science Publishers, Vol.3, 1986, pp.121-128.

F. Tatsuoka, M. Sakamoto, T. Kawamura and S. Fukushima : "Strength and Deformation Characteristics of Sand in Plane Strain Compression at Extremely Low Pressures," Soils and Foundations, Vol.26, No.1, JSSMFE, March 1986.

F. Tatsuoka, S. Goto and M. Sakamoto : "Effects of Some Factors on Strength and Deformation Characteristics of Sand," Soils and Foundations, Vol.26, No.1, JSSMFE, March 1986.

F. Tatsuoka, S. Maeda, K. Ochi and S. Fujii : "Prediction of Cyclic Undrained Strength of Sand Subjected to Irregular Loadings," soils and Foundations, Vol.26, No.2, JSSMFE, June 1986.

F. Tatsuoka, K. Ochi, S. Fujii and M. Okamoto : "Cyclic Undrained Triaxial and Torsional Shear Strength of Sands for Different Sample Preparation Methods," Soils and Foundations, Vol.26, No.3, JSSMFE, September 1986.

F. Tatsuoka, S. Toki, S. Miura, H. Kato, M. Okamoto, S. Yamada and S. Yasuda : "Some Factors Affecting Cyclic Undrained Triaxial Strength of Sand," Soils and Foundations, Vol.26, No.3, JSSMFE, September 1986.

S. Toki, F. Tatsuoka, S. Miura, Y. Yoshimi, S. Yamada and Y. Makihara : "Cyclic Undrained Triaxial Strength of Sand By a Cooperative Test Program," Soils and Foundations, Vol.26, No.3, JSSMFE, September 1986.

F. Tatsuoka, S. Sonoda, K. Hara, S. Fukushima and T.B.S. Pradhan : "Failure and Deformation of Sand in Torsional Shear," Soils and Foundations, Vol.26, No.4, JSSMFE, December 1986.

T.B.S Pradhan, F. Tatsuoka and F. Molenkamp : "Accuracy of Automated Volume Change Measurement by means of a Differential Pressure Transducer," Soils and Foundations, Vol.26, No.4, JSSMFE, December 1986.

F. Tatsuoka and H. Yamauchi : "A Reinforcing Method for Steep Clay Slopes Using a Non-Woven Geotextile," Geotextiles and Geomembranes, Vol.4, Elsevier Applied Science, 1986.

X. Kong, F. Tatsuoka and T.B.S Pradhan : "Dynamic Deformation Properties of Sand at Extremely Low Pressures," Proc. 7th Earthquake Engineering Symposium, AIJ, December 1986.
