

**LIST OF PAPERS BY MEMBERS OF
EARTHQUAKE RESISTANT STRUCTURE RESEARCH CENTER**

SEISAN-KENKYU : Monthly Journal of the Institute of Industrial Science,
The University of Tokyo

JSCE : The Japan Society of Civil Engineers

JSME : The Japan Society of Mechanical Engineers

AIJ : The Architectural Institute of Japan

JCI : Japan Concrete Institute

JSSC : The Japan Society of Steel Construction

JGS : The Japanese Geotechnical Society

JAEE : The Japan Association for Earthquake Engineering

* : Written in Japanese

J. Johansson and K. Konagai, "Fault induced permanent ground deformations: Experimental verification of wet and dry soil, numerical findings' relation to field observations of tunnel damage and implications for design," Soil dynamics and earthquake engineering, **27(10)**, 938-956, 2007.

K. Konagai, K. J. Johansson, T. Ikeda, A. Numata and S. Takatsu, "Geotechnical problems for rational rehabilitations of areas affected by the Kashmir Earthquake of October 8, 2005, Pakistan," Proceedings of the Japan-Pakistan Joint Seminar on Earthquake Natural Disaster Mitigation. EWBJ, ERRA, AIJ, JSCE and JICA, 1-22, October 23, 24, 2007.

K. Konagai, T. Ikeda, Y. Nakano, M. Teshigawara and T. Suzuki, "Strong ground motions and soil deformations in the May 27th, 2006, Mid-Java Earthquake," Bull. Earthquake Resistant Structure Research Center, **40**, 61-70, 2007

Wood, D.M. & Johansson, J. Interaction of flexible structures with moving ground
Italian Geotechnical Journal, 2008 (submitted)

Jörgen Johansson, Paola Mayorca, Tatiana Torres, Edwin Leon, A Reconnaissance Report On The Pisco, Peru Earthquake Of August 15, 2007 JSCE, JAEE, Institute of Industrial Science, Univerisity of Tokyo, 2007, <http://www.jsce.or.jp/report/44/index.shtml>

Jörgen Johansson, Paola Mayorca, Tatiana Torres, Edwin Leon, Liquefaction induced damage in Tambo de Mora due to the August 15,2007 Peru Earthquake, Japan Association of Earthquake Engineering, 2007

Tang, A.K. & Johansson, J. (ed.) Pisco, Peru, Earthquake Of August 15, 2007 Lifeline Performance, American Society of Civil Engineers, ASCE, 2007

Yashinsky, M. & Johansson, “Ch 3. Transportation Systems”, in Kashiwazaki, Japan, Earthquake Of July 16, 2007 Lifeline Performance, J. Tang, A.K. & Schiff, A.J. (ed.), American Society of Civil Engineers, ASCE, 2007

Johansson, J. & Konagai, K., Fault induced permanent ground deformations: experimental verification of wet and dry soil, numerical findings' relation to field observations of tunnel damage and implications for design, Soil dynamics and earthquake engineering, 2007, 27, 938-956

Johansson, J. & Konagai, K., Fault surface rupture criteria based on asperity maximum slip induced strain, Bulletin of Seismological Society of America, 2007 (under revision)

Abe, K.; Johansson, J. & Konagai, K., A new method for the run-out analysis and motion prediction of rapid and long-traveling landslides with MPM, Doboku Gakkai Ronbunshuu C, 2007, 63, 93-109, (in Japanese, with English Abstract)

Konagai, K.; Johansson, J. & Numada, Extracting necessary parameters from real landslide mass for mitigating landslide disaster, M. K. Sassa, H.F. (ed.) Progress in Landslide Science, Springer, 2007,pp 277-284

Y. Nakano and M. Teshigawara, Seismic Evaluation and Rehabilitation of Vulnerable RC uildings -Experiences and Lessons in Japan-, Proceedings of Indonesia-Japan Joint Seminar on Mapping-out Strategies for Better Seismic Disaster Mitigation, JSCE, AIJ and Engineers without Borders Japan, 2007.2.

M. Teshigawara and Y. Nakano, Damage and Design on Non-Engineered Buildings, Proceedings of Indonesia-Japan Joint Seminar on Mapping-out Strategies for Better Seismic Disaster Mitigation, JSCE, AIJ and Engineers without Borders Japan, 2007.2.

Y. Nakano, H. Choi and N. Takahashi, Residual Seismic Capacity Estimation of RC Frames with Concrete Block Infill Based on Their Crack Widths, Proceedings of the International Symposium on Seismic Risk Reduction (The JICA Technical Cooperation Project in Romania), pp. 545-552, National Center for Seismic Risk Reduction, Romania, 2007.4.

N. Takahashi, Y. Nakano and H. Shiohara, Mutual Relation of Safety and Reparability for R/C Structures in Performance-based Seismic Design, Proceedings of the Fourth Korea-Japan Workshop on New Direction for Enhancement of Structural Performance, 2007.7.

Y. Nakano, H. Choi and N. Takahashi, Residual Seismic Capacity Evaluation of RC Buildings with Concrete Block Infill Based on Their Crack Widths, Proceedings of the Fourth Korea-Japan Workshop on New Direction for Enhancement of Structural Performance, 2007.7.

Y. Sanada, N. Yamauchi, E. Takahashi, and Y. Nakano, Retrofitting of a Reinforced Concrete Frame Using Ductile Interlocking Blocks, Proceedings of the First International Workshop on Performance, Protection & Strengthening of Structures under Extreme Loading (CD-ROM), 2007.8.

M. Teshigawara and Y. Nakano, Damage and Design on Non-Engineered Buildings, Proceedings of Seminar on Earthquake Natural Disaster Mitigation, Pakistan, JSCE, AIJ and Engineers without Borders Japan, 2007.10.

Y. Nakano and M. Teshigawara, Seismic Evaluation and Rehabilitation of Vulnerable RC Buildings - Experiences and Lessons in Japan -, Proceedings of Seminar on Earthquake Natural Disaster Mitigation, Pakistan, JSCE, AIJ and Engineers without Borders Japan, 2007.10.

Y. Nakano et al., Seismic Rehabilitation of Concrete Structures, International Publication Series IPS-2, 526 pp., ACI and JCI, 2007.10.

N. Takahashi, Y. Nakano and H. Shiohara, Mutual Relation of Safety and Reparability for R/C Structures in Seismic Design, Proceedings of the Eighth Pacific Conference on Earthquake Engineering, Paper ID 207, 2007.12.

H. Choi, Y. Nakano and N. Takahashi, Residual Seismic Capacity Estimation of RC Frame with Block Infill Based on Crack Width, Proceedings of the Eighth Pacific Conference on Earthquake Engineering, Paper ID 221, 2007.12.

H. Choi and Y. Nakano, Residual Seismic Capacity Estimation of RC Frames with Unreinforced Concrete Block Infill, Proceedings of the Sixth International Symposium on New Technologies for Urban Safety of Mega Cities in Asia, 2007. 12.

E. Sato and T. Fujita, Semi-active Seismic Isolation System with Controllable Friction Dampers Using Piezoelectric Actuators, Journal of Environment and Engineering, Vol. 2, No. 2, pp.215-226, 2007.3

T. Kamada and T. Fujita, Current Status of Seismic Isolation and Vibration Control to Buildings, Cultural Heritage and Industrial Facilities in Japan, ASSISi 10th World Conference on Seismic Isolation, Energy Dissipation and Active Vibrations Control of Structures, Istanbul, Turkey, 2007.5

M. Morishita, J. Suhara, S. Ikutama and T. Fujita, Development of Three Dimensional Seismic Isolation Technology for Advanced Nuclear Power Plants, ASSISi 10th World Conference on Seismic Isolation, Energy Dissipation and Active Vibrations Control of Structures, Istanbul, Turkey, 2007.5

H. Masuda, T. Koga, M. Hayatsu, M. Wada and T. Fujita, Investigations on Aseismic Performance of Cargo Handling Equipment with Hinged-Leg Structure, ASSISi 10th World Conference on Seismic Isolation, Energy Dissipation and Active Vibrations Control of Structures, Istanbul, Turkey, 2007.5

E. Sato and T. Fujita, Semi-Active Seismic Isolation System with Controllable Friction Dampers Using Hydraulic System Driven by Giant Magnetostrictive Actuators, ASSISi 10th World Conference on Seismic Isolation, Energy Dissipation and Active Vibrations Control of Structures, Istanbul, Turkey, 2007.5

H. Furukawa, T. Fujita, T. Kamada and H. Misoka, Development of Active-Passive Seismic Isolation System Using AC Servomotors for Monocrystal Pullers, ASSISi 10th World Conference on Seismic Isolation, Energy Dissipation and Active Vibrations Control of Structures, Istanbul, Turkey, 2007.5

K. Sasaki, M. Miyazaki, T. Fujita, H. Kitamura, K. Yoshie and M. Ishii, Energy Dissipation Performances of Buildings Using Combinations of Hysteretic Dampers and Viscous Dampers, ASSISi 10th World Conference on Seismic Isolation, Energy Dissipation and Active Vibrations

Control of Structures, Istanbul, Turkey, 2007.5

O. Takahashi, H. Hasegawa, Y. Kunimatsu, N. Okayama, J. Suhara, R. Matsumoto, Y. Tsuyuki, T. Kamei and T. Fujita, Application of Three Dimensional Seismic Isolation to Civil Building, ASSISi 10th World Conference on Seismic Isolation, Energy Dissipation and Active Vibrations Control of Structures, Istanbul, Turkey, 2007.5

M. Shimazaki, T. Fujita, N. Yamada, M. Yasuda, H. Hora and M. Tsuchiya, Active Microvibration Control System Using Magnetostrictive Actuators for Surgical Microscope of Suspension Type, ASSISi 10th World Conference on Seismic Isolation, Energy Dissipation and Active Vibrations Control of Structures, Istanbul, Turkey, 2007.5

H. Hora, M. Yasuda, T. Osako, Y. Noguchi, H. Kato, T. Fujita and M. Shimazaki, Active Micro-Vibration Control System Using Piezoelectric Actuators for Floor Structure of Precision Manufacturing Facilities, ASSISi 10th World Conference on Seismic Isolation, Energy Dissipation and Active Vibrations Control of Structures, Istanbul, Turkey, 2007.5

*E. SATO and T. FUJITA, Semi-Active Isolation System with Controllable Friction Dampers Using Hydraulic System Driven by Giant Magnetostrictive Actuators, Transactions of JSME, Ser. C, Vol. 73, No. 730, pp.1723-1730, 2007.6

Y. Nakamura, M. Nakayama, M. Kura, M. Yasuda and T. Fujita, Application of Active Micro-vibration Control System using a Giant Magnetostrictive Actuator, Journal of Intelligent Material Systems and Structures, Vol. 18, No. 11, pp.1137-1148, 2007.11

S. Nakajima, J. Koseki, K. Watanabe and M. Tateyama.: Shaking table model tests on retaining walls with aseismic countermeasures, Proc. of 13th Asian Regional Conference of Soil Mechanics and Geotechnical Engineering, Kolkata, Vol. 1, Part 2, pp.613-616, 2007.

J. Koseki, T. Kiyota, A.M. Mohammad and T. Sato: Undrained cyclic torsional shear tests on sand up to extremely large strain levels, International Workshop on Earthquake Hazards and Mitigations, Guwahati, India, pp.257-263, 2007.

T. Kiyota, J. Koseki and T. Sato: Liquefaction resistance and dynamic shear moduli of in-situ frozen and reconstituted sandy soils, International Workshop on Earthquake Hazards and Mitigations, Guwahati, India, pp.296-302, 2007.

S. Nakajima, K. Hong, S. Mulmi, J. Koseki, K. Watanabe and M. Tateyama.: Model tests on seismic performance of reinforced soil retaining walls by using different geo-grids, International Workshop on Earthquake Hazards and Mitigations, Guwahati, India, pp.319-325, 2007.

J. Koseki, M. Tateyama and M. Shinoda: Seismic design of geosynthetic reinforced soils for railway structures in Japan, Proc. of 5th Int. Sym. on Earth Reinforcement, Fukuoka, pp.113-119, 2007.

S. Nakajima, J. Koseki, M. Tateyama and K. Watanabe: Shaking table model tests on retaining walls reinforced with soil nailings, Proc. of 5th Int. Sym. on Earth Reinforcement, Fukuoka, pp.707-712, 2007.

T. Namikawa, J. Koseki and K. Suzuki: Finite element analysis of lattice-shaped ground improvement by cement-mixing for liquefaction mitigation, Soils and Foundations, Vol.47, No.3, pp.559-576, 2007.

T. Namikawa and J. Koseki: Evaluation of tensile strength of cement-treated sand based on several types of laboratory tests, Soils and Foundations, Vol.47, No.4, pp.657-674, 2007.

J. Koseki, M. Yoshimine, T. Hara, T. Kiyota, R.I. Wicaksono, S. Goto and Y. Agustian: Damage survey report on May 27, 2006, Mid Java Earthquake, Indonesia, Soils and Foundations, Vol.47, No.5, pp.973-989, 2007.

J. Koseki, J.M. Karimi, Y. Tsutsumi, S. Maqbool and T. Sato: Cyclic plane strain compression tests on dense granular materials, Soil Stress-strain behavior : Measurement, Modeling and Analysis, Geotechnical Symposium in Roma, Springer, pp.547-555, 2007.

J. Koseki and J. Kuwano: Japanese experiences on seismic stability of geosynthetic-reinforced soil retaining walls, New Frontiers in Chinese and Japanese Geotechniques, Proc. of 3rd Sino-Japan Geotechnical Symposium, Chóngqing, pp.46-56, 2007.

J. Deng, Y. Tsutsumi, H. Kameya, T. Sato and J. Koseki: Properties of undisturbed samples retrieved from failed slope due to 2004 Niigata-ken Chuetsu Earthquake, New Frontiers in Chinese and Japanese Geotechniques, Proc. of 3rd Sino-Japan Geotechnical Symposium, Chóngqing, pp.124-134, 2007.

L.I.N. DeSilva, T. Sato, T. Kiyota, T. Honda and J. Koseki: Use of electronic balance in measurement of small volumetric strain of hollow cylinder sand specimens, Proc. of 9th International Summer Symposium, International Activities Committee, JSCE, pp.167-170, 2007.

J. Deng, Y. Tsutsumi, H. Kameya, T. Sato and J. Koseki: Strength properties of undisturbed samples retrieved from failed slope due to earthquake, Proc. of 9th International Summer Symposium, International Activities Committee, JSCE, pp.159-162, 2007.

R.I. Wicaksono, Y. Tsutsumi, T. Sato, J. Koseki and R. Kuwano: Small strain stiffness of clean sand and gravel based on dynamic and static measurements, Proc. of 9th International Summer Symposium, International Activities Committee, JSCE, pp.171-174, 2007.

S. Mulmi, S. Nakajima and J. Koseki: Shear stress - strain response analysis of backfill soil of model retaining wall using shaking table, Proc. of 9th International Summer Symposium, International Activities Committee, JSCE, pp.151-154, 2007.

K. Hong, S. Nakajima and J. Koseki: Negative pore air pressure induced in air-dried dense backfill sand of retaining wall models during 1g shaking table test, Proc. of 9th International Summer Symposium, International Activities Committee, JSCE, pp.191-194, 2007.
