LIST OF PAPERS BY MEMBERS OF
EARTHQUAKE RESISTANT STRUCTURE RESEARCH CENTER

SEISAN-KENKYU : Monthly Journal of the Institute of Industrial Science,
The University of Tokyo
JSCE : The Japan Society of Civil Engineers
JSME : The Japan Society of Mechanical Engineers
AIJ : The Architectural Institute of Japan
JCI : Japan Concrete Institute
JSSC : The Japan Society of Steel Construction
JGS : The Japanese Geotechnical Society
JAEE : The Japan Association for Earthquake Engineering
* : Written in Japanese

---

---

M. Numada: Case Studies of Decision-making and response strategies of Central and Local governments, International Conference on "Building Disaster Resilient Societies: Lessons from Japan, Date - 22-23 February, 2013, Venue - New Delhi

M. Numada and K. Meguro: Development of running spectrum analysis for analyzing huge disaster information, ICOSSAR2013, 11th International Conference On Structural Safety &
Reliability, June 16-20, 2013 - Columbia University, New York City, Presented at 19th.
Presentation No. SN02.

M. Numada and K. Meguro: Analysis of Disaster Process by Running Spectrum Approach -
Case study of the 2011 Great East Japan Earthquake -, International conference of SE-EEE (50
years Skopje earthquake, 50 years European earthquake engineering), Paper No. 475, 10 pages,
May 29, 2013, Skopje, Republic of Macedonia.

M. Numada, S.M. Umair, Masayuki WATANABE, Masato KURODA and K. Meguro: Field
Application of Polypropylene (PP-band) Retrofitting Method for Seismic Retrofitting of
Masonry Structures, International conference of SE-EEE (50 years Skopje earthquake, 50 years
European earthquake engineering), Paper No. 589, 7 pages, May 29, 2013, Skopje, Republic of
Macedonia.

M. Numada and K. Meguro: Analysis of initial disaster responses for disaster management
stakeholders in emergency and recovery phase for sustainable disaster management system,
Proceedings of the 12th International Symposium on New Technologies for Urban Safety of

Connectivity for Cost and Time Effectiveness in Seismic Retrofitting of Masonry Structures,
Proceedings of the 12th International Symposium on New Technologies for Urban Safety of

A. Mahmood DAR, S. M. UMAIR, M. Numada and K. Meguro: Experimental Study on
PP-band Mesh Connectivity for Effective Seismic Retrofitting of Brick Masonry, JAEE
International Symposium, Ser. No.14, Nov. pp.11-12, 2013, National Olympics Memorial Youth
Center

M. Fujiu, M. Ohara and K. Meguro: Study on applicability of remote building damage
assessment system for large-scale earthquake disasters - Focused on the photo upload system -,
Safety of Mega Cities in Asia, CD-ROM, 10 pages, 2013.10.

S. M. Umair, M. Numada and K. Meguro: Evaluation of Fiber Reinforced Polymer Retrofitted
House Model under Shake Table Testing, 3-526, Proc. of 33th JSCE Earthquake Engineering
Symposium, 5 pages, Oct. 24, 2013, The University of Tokyo

Nguyen, N.D. and Kuwano, R: The deformation of flexible pipe buried in soil with different degree of compaction, Proc. 12th International symposium on new technologies for urban safety of mega cities in Asia, USMCA, Hanoi, October 2013, CD-ROM.

Kiyota, T., Koseki, J. and Sato, T.: Relationship between limiting shear strain and reduction of shear moduli due to liquefaction in large strain torsional shear tests, Soils Dynamics and...
Earthquake Engineering, 49, pp. 122-134.

M. Ohara and A. Tanaka: Study on the Changes in People’s Consciousness Regarding the Earthquake Early Warning Before and After the Great East Japan Earthquake –Analysis Based on Regular Disaster Information Survey Results–, Journal of Disaster Research, Vol.8, No.sp, pp.792-801, 2013.
