

## **LIST OF PAPERS BY MEMBERS OF Engineering for Resilient Society Research Group (ERS)**

S M Naheed ADNAN, Yuji HAGA, Kazuto MATSUKAWA, Yoshiaki NAKANO: Behavior of RC Frame with Low Strength Concrete and Straight Anchorage under Extremely High Axial Loads, Proceedings of JAEE annual meeting 2019, September 2019.

Yuebing LI, Yasushi SANADA, Koki MAEKAWA, Haruka KATAYAMA, Ho CHOI, Kazuto MATSUKAWA, Susumu TAKAHASHI, Seismic strengthening and rehabilitation of RC frame structures with weak beam-column joints by installing wing walls, Bulletin of Earthquake Engineering, pp. 1-35, January 2019.

Kiyota, T., Maekawa, Y. and Wu, C. (2019): Using in-situ and laboratory-measured shear wave velocities to evaluate the influence of soil fabric on in-situ liquefaction resistance, Soil Dynamics and earthquake Engineering, No. 117, pp. 164-173.

Wu, C. and Kiyota, T. (2019): Effects of specimen density and initial cyclic loading history on correlation between shear wave velocity and liquefaction resistance of Toyoura sand, Soils and Foundations, Vol. 59, pp. 2310-2316.

Teramoto, R., Kiyota, T., Shiga, M. and Watanabe, T. (2019): Subsidence map for Kumamoto City liquefied in the 2016 Kumamoto earthquake, Japan, Proc. of the 7th International Conference on Earthquake Geotechnical Engineering.

Umar, M., Kiyota, T., Chiaro, G. and Duttine, A. (2019): Impact of cyclic damage shear strain on the strain localization of sand in large strain torsional shear test, Proc. of the 7th International Conference on Earthquake Geotechnical Engineering, pp. 5402-5409.

Chiaro, G., Kiyota T. and Umar, M. (2019): Undrained monotonic and cyclic torsional simple shear behavior of the Aso pumiceous soil deposits. Proc. of the 7th International Conference on Earthquake Geotechnical Engineering, pp. 1754-1761.

Munoz, H., Umar, M. and Kiyota, T. (2019): Quantification of the field of shear strains in saturated sand subjected to undrained monotonic and cyclic torsional shearing via 3D digital image correlation, Proc. of the 7th International Conference on Earthquake Geotechnical Engineering, pp. 4063-4071.

Sawatsubashi, M. and Kiyota, T. (2019): Effects of immersion on cyclic loading and creep behavior of gravelly mudstones by direct shear test, Proc. Of the 5th ISRM Young Scholars' Symposium on Rock Mechanics and International Symposium on Rock Engineering for Innovative Future, ID: 1-6-6.

Y. Nakaso, K. Tateyama, H. Yamada, and K. Kawaguchi: Compressive properties of finishing materials such as gypsum boards in a wide range of strain rates, *Journal of Structural and Construction Engineering (AIJ)*, Vol.84 No.766, 2019.12, pp1525-1532.

T. Zhang, K. Kawaguchi and M. Wu: Optimization of Frame Structures with Kinematical Indeterminacy for Optimum Folding, *Journal of Engineering Mechanics*, Vol.145 No.9, 2019.9, 04019072.

J. Hu, K. Kawaguchi and J. Ma: Retractable membrane ceilings for enhancing building performance of enclosed large-span swimming stadiums, *Engineering Structures*, Vol.186, 2019.5, pp.336-344

T. Zhang, K. Kawaguchi and M. Wu: Concept and Preliminary Analysis of Novel Movable Structural System for Cable-Stayed Footbridge, *Journal of Bridge Engineering*, Vol.24 No.9, 2019.4, pp. 04019021.

K. Kawaguchi, K. Uemura, and K. Oka: A Preliminary study of early reinforced concrete domes in Japan (Part 1: Kasuisai gokoku tower, Imabari radium hot spring and Meiji memorial picture gallery), *Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20377*, pp. 753-754, DVD-ROM.

K. Uemura, K. Kawaguchi, and Kenji Oka: A Preliminary study of early reinforced concrete domes in Japan (Part 2: Orthodox church in Japan and a study of comments on domes in early 1900's), *Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20378*, pp. 755-756, DVD-ROM.

H. Furuta, K. Kawaguchi, Y. Nakaso, Y. Li, A. Mutoh, S. Matsumoto and T. Kimura: Japan's early reinforced concrete dome structure: Three- dimensional measurement of Imabari radium hot spring. Part 1: Laser measurement and 3D model creation, *Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20379*, pp. 757-758, DVD-ROM.

Y. Li, K. Kawaguchi, Y. Nakaso, H. Furuta, A. Mutoh, S. Matsumoto and T. Kimura: Japanese early reinforced concrete dome structure: Three-dimensional measurement of Imabari radium hot spring Part 2: fundamental considerations based on 3D shape data, *Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20380*, pp. 759-760, DVD-ROM.

A. Mutoh, K. Teranishi, M. Sugahara, I. Katsurayama, K. Kawaguchi, Y. Nakaso, S. Matsumoto and T. Kimura: Preliminary report on structural investigation of "Imabari radium hot spring", an early RC dome structure in Japan. Part 1: Investigation of outline of the dome and estimation of structural characteristics, *Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20381*, pp. 761-762, DVD-ROM.

S. Matsumoto, K. Kawaguchi, Y. Nakaso, A. Mutoh, T. Kimura and D. Fujii: Japanese early reinforced concrete dome structure: Vibration characteristics of Imabari radium hot spring Part 1:

Results of microtremor measurement, Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20382, pp. 763-764, DVD-ROM.

Y. Otsuka, K. Kawaguchi, T. Inokuchi and Y. Nakaso: Preliminary research of manufacturing and loading experiment of personal tsunami shelter with inflatable membrane, Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20436, pp. 871-872, DVD-ROM.

K. Mizutani and K. Kawaguchi: Preliminary Research on Discretization Method of Cylindrical Surface by Discrete Planar Curve of Arc Elements with Constraint of Curvature, Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20457, pp. 913-914, DVD-ROM.

Y. Lu, K. Kawaguchi and K. Mizutani: Preliminary Research of Axial Force Monitoring of Fullscale Tensegrity Skeleton (Part1: Exchange of Axial Force Observed in the Pentagonal Model), Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20469, pp. 937-938, DVD-ROM.

S. Arimoto, K. Kawaguchi Y. Nakaso, T. Demura: Preliminary study of mechanical aspect of plant gravitropism behavior (Part 1: Observation and measurement of gravitropism of pea sprouts ), Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20485, pp. 969-970, DVD-ROM.

R. Hosomi, K. Kawaguchi, Y. Nakaso H. Ishizuka, F. Togawa N. Okayama, S. Arimoto and T. Demura: Derivation and numerical analysis of huge building design methodology in a sustainable structure system studied from the strategies of mechanical optimization in plants. (No.1 Research Summary), Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20486, pp. 971-972, DVD-ROM.

T. Zhang, K. Kawaguchi and M. Wu: Preliminary Research on Folding Analysis of the Origami Structures Based on Frame Structures with Kinematic indeterminacy, Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20499, pp. 997-998, DVD-ROM.

Y. Nakaso, K. Tateyama, H. Yamada and K. Kawaguchi: Identification of constants for CowperSymonds constitutive equation on rock wool sound absorbing board compressive strength., Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20512, pp. 1023-1024, DVD-ROM.

T. Iizuka, K. Kawaguchi and Y. Nakaso: Preliminary study of mechanism of safety net as prevention for the failure of non-structural components Part6: Experiments and numerical analysis of the dynamic reactions of safety net, Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20515, pp. 1029-1030, DVD-ROM.

Y. Koda, P. Wang and K. Kawaguchi: Preliminary study of ceiling damage detection system using image database by deep learning approach Part2, Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 20519, pp. 1037-1038, DVD-ROM.

Y. Takahashi, K. Kawaguchi, T. Taguchi and A. Nishino: Preliminary research on steel plate damping devices using three-dimensional resistance mechanism for wooden houses, Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 22219, pp. 437438, DVD-ROM.

J. Hu and K. Kawaguchi: Indoor environmental performance of large-space residential buildings in winter, Summaries of Technical Papers of Annual Meeting, AIJ, Hokuriku, Japan, July 2019, No. 41206, pp. 425-426, DVD-ROM.

NAMBA Tokikatsu, MITSUI Shuhei, MORI Takuro, INOUE Ryo, TANAKA Kei, HARADA Koji and KOSHIHARA Mikio, Finite Element Analysis of Uniformly Partial Compression Tests of CLT-Glulam Joints, Proceedings of annual research meeting Chugoku Chapter, Architectural Institute of Japan, vol.43, pp85-88, 2020.2

Koshihara Mikio, The History and Current Situation of Middle-high-rise Wooden Buildings in Japan, NPO Wood Architecture [NPO Ki no Kenchiku], vol.49, pp5-11, Forum for Wood Architecture, 2019.10

Koshihara Mikio, The Relationship between Frame and Processing, Kenchiku Gijutsu, Vol.836, pp70-73, Kenchiku Gijutsu, 2019.9

YAMADA Shota, TANAKA Kei, HARADA Koji, NAMBA Tokikatsu, MITSUI Shuhei, MORI Takuro, KOSHIHARA Mikio and ISODA Hiroshi, Works Toward Practical Use of CLT Panel-Glulam Frame Hybrid Construction Part1: Partial compression test of connection between CLT and glulam, Summaries of technical papers of annual meeting Architectural Institute Japan, StructureIII, pp703-704, 2019.7

MITSUI Shuhei, NAMBA Tokikatsu, TANAKA Kei, YAMADA Shota, MORI Takuro, NAKAGAWA Takafumi and KOSHIHARA Mikio, Works toward Practical Use of CLT Panel-Glulam Frame Hybrid Construction Part2: Elasto-Plastic Analysis of Wooden Behavior in Partial Compression Test, Summaries of technical papers of annual meeting Architectural Institute Japan, StructureIII, pp705-706, 2019.7

MATSUMOTO Naoyuki, YAO Chihchien, HARADA Koji, TANAKA Kei, NAKAGAWA Takafumi, ARAKI Yasuhiro and KOSHIHARA Mikio, Works toward Practical Use of CLT Panel-Glulam Hybrid Construction (Part3:The In-Plane Shear Tests of Two-Story Frame Using CLT Panel and Glulam; Summary of Tests and Results), Summaries of technical papers of annual meeting Architectural Institute Japan, StructureIII, pp707-708, 2019.7

YAO Chihchien, MATSUMOTO Naoyuki, HARADA Koji, TANAKA Kei, NAKAGAWA Takafumi, ARAKI Yasuhiro, KOSHIHARA Mikio, Works toward Practical Use of CLT Panel-Glulam Hybrid Construction (Part4:The In-Plane Shear Tests of Two-Story Frame Using CLT Panel and Glulam; Details of Deformation, Load and Failure), Summaries of technical papers of annual meeting Architectural Institute Japan, StructureIII, pp709-710, 2019.7

NAKAGAWA Takafumi, KOSHIHARA Mikio, ARAKI Yasuhiro, MORI Takuro, MITSUI Shuhei, MATSUMOTO Naoyuki, YAO Chihchien and HARADA Koji, Works Toward Practical

Use of CLT Panel-Glulam Frame Hybrid Construction Part5: Numerical Analysis for Shear wall test, Summaries of technical papers of annual meeting Architectural Institute Japan, StructureIII, pp711-712, 2019.7

Manabu Fujimoto, Naoyuki Matsumoto, Ryohei Kumagai, Mikio Koshihara, A Study on the Diffusion Process of the Fire-proof Floor in Japan: through Diploma Design Works in the University of Tokyo during Meiji Era, Summaries of technical papers of annual meeting Architectural Institute Japan, Architectural History and Design, pp673-674, 2019.7

TANAKA Ryoma , AZUMI Yoshiharu, KOSHIHARA Mikio, MIYAKE Tatsuya, KAWAI Naohito and SUZUKI Kei, A study on expansion and improvement of the structural design method for CLT panel construction, Part 7 Structural calculation method of CLT floor panel bent simultaneously in 2 directions, Summaries of technical papers of annual meeting Architectural Institute Japan, StructureIII, pp471-472, 2019.7

SHIGEMITSU Sato, INOUE Juriya, YAMADA Shota, TANAKA Kei, KOSHIHARA Mikio and INOUE Masafumi, Study on Strength Mechanism of Joint System Using Metal Connector and Adhesive in Timber Structures Part.15 Pull-out Test of GIR Joint Inserted Deformed Rebar, Summaries of technical papers of annual meeting Architectural Institute Japan, StructureIII, pp99-100, 2019.7

INOUE Juriya, SHIGEMITSU Sato, YAMADA Shota, TANAKA Kei, KOSHIHARA Mikio and INOUE Masafumi, Study on Strength Mechanism of Joint System Using Metal Connector and Adhesive in Timber Structures Part.16 Consideration of Calculating Method for Split Strength of GIR Joint Inserted Deformed Rebar, Summaries of technical papers of annual meeting Architectural Institute Japan, StructureIII, pp101-102, 2019.7

Mikio Koshihara, New Potential of Wood Architecture, Re : Building maintenance & management, vol.41, No.1, pp62-65, 2019.7

Mikio Koshihara, Osamu Koizumi, Satoru Nagasawa, Problem and Potential in Wood Utilization, Kindai Kenchiku, vol.73, No.4, pp124-131, 2019.4
