Professor Yoshiaki Nakano was invited to “Seminar on Technology Dissemination on seismic Evaluation and Retrofitting for Existing Buildings in Myanmar” and he presented “Seismic Upgrading of Vulnerable RC Buildings – Experiences and Lessons in Japan –“ at Myanmar Engineering Council(MEC), Yangon, Myanmar, on February 11, 2019.

Associate Professor T. Kiyota presented an Invited lecture “Reconnaissance on long-distance flow-failure in Palu by JICA advisory team” in Forum on Geotechnical Aspects of 2018 Indonesian Palu Earthquake, the 7th International Conference on Geotechnical Earthquake Engineeringin, Rome , Italy, 17-20 June, 2019.

Associate Professor T. Kiyota conducted damage surveys after the Sulawesi Earthquake, Indonesia, 25th June to 4th July, 2019.

Prof. Kawaguchi was invited to the memorial lecture “Half a century after EXPO'70, structural design for a bright future” held by Kansai branch of JSCA and gave a lecture “Human progress and harmony: the role and vision of structure for the future” at Green Hall of the Construction Communication Center, Osaka, Japan, on Nov. 28, 2019.

Dr. Nakaso was invited to Interdisciplinary Workshop “Technical base for analyzing the complicated structures of plants and their forms and dynamics” and gave a presentation “Relationship between plant and building structure” at NAIST, Nara, Japan, on Dec 6, 2019.

Prof. Kawaguchi gave a lecture “Tensegrity and Deployable Structures” to high school students of Tokyo City University Junior and Senior High School, at IIS, the University of Tokyo, on Nov. 25, 2019.

Prof. Kawaguchi gave a special lecture “The Safety of the gathering facilities and non-structural materials used for high spaces” and “From Tension Structures to Movable Architectures” at Nagoya City University, Japan, on Nov. 12, 2018.

Prof. Kawaguchi was invited to the 18th NC-CARP Consortium held by Japan Die & Metal Industry Association and gave a presentation “Architectural Structures and Creatures” in Japan, on May. 20, 2019.

Prof. Kawaguchi was invited to SEWC2019 and gave a Keynote Lecture “Modern Architectures and Ceiling Safety” at Hotel Marmala Taksim, Istanbul Turkey, on Apr. 25, 2019.

Prof. Kawaguchi was invited to give a special lecture “Some Challenges in Structural Design from Tensegrity to Kinetic Structures” at China University of Mining and Technology, Xuzhou, China, on Apr. 15, 2019.

Prof. Kawaguchi was invited to the Meeting of Association of Shanghai Membrane Companies and gave a presentation “New Topics of Tension and Membrane Structures” at the Association of Shanghai Membrane Companies, Shanghai, China, on Apr. 13, 2019.

Prof. Kawaguchi attended the panel discussion of the Architectural Institute of Japan annual meeting 2019 and gave a discussion on “The Ideals and challenges after events” at Kanazawa Institute of Technology, Japan, on Sep. 4, 2019.
